## In the unlocking phase, Robotics Solutions from STPL are reviving the diamond industry

ANI 30-06-2020

Surat (Gujarat) [India] June 30 (ANI/BusinessWire India): The spread of COVID-19 has disrupted the world in many ways, but thankfully, we are witnessing several positive ways of recovery. After a long period of stagnation of normal public and industrial activities around the world, efforts are now being made to revive the crippled economy.

It has become very clear that digital technology, automation, and robotics will dominate every type of industry and business in the coming times.

Especially in the diamond industry, which has so far been quite labor-intensive, COVID-19 has played havoc. Maintaining social distancing is crucial but diamond processing units are finding it difficult to maintain their outputs with fewer workers.

The availability of skilled artisans has also become uncertain for a while. On the other hand, given the revival of the economy, increasing productivity and staying competitive in terms of quality is also crucial.

All of these things were important in the diamond industry even before the spread of the coronavirus, and in the changing world, digital technology and automation have become inevitable.

Even after the unlocking efforts by the government, diamond processing units are finding it difficult to restart, especially due to the lack of artisans.

But showing a ray of hope for the entire industry, two diamond processors from Gujarat have been successful in restarting their units. It is noteworthy that these two diamond processors have been able to
